Court met with lead and liaison counsel prior to the hearing today.

Michael Burg reports that the Garretson Group continues to work on resolutions. All parties are looking to speed up the process. The Court will also address this in an order.

The parties are continuing to work together regarding the generic fact discovery and Kaspar Stoffelmayr states he believes the parties can resolve the issues amongst themselves.

The Plaintiffs have filed the ATE expert reports. These reports will be the subject of a separate court order. CMO 70's requirement for defendant's disclosure of defense expert reports relates to Schuchert only. A separate deadline will be established for MDL generic expert report deadlines.
